Art Unit: 1618

Claims 21-38, 40-46, 48-54, 56, 57 and 63 are presented for examination.

The amendments and remarks filed on March 21, 2007 have been received and entered.

Claims 21-38, 40-46, 48-54, 56, 57 and 63 are rejected under 35 U.S.C. 103 (a) as being unpatentable Muller et al. (U.S. Patent 5,585,410) and Anderson et al. (U.S. Patent 5,739,152) for the reasons set forth on pages 2-4 of the office action of September 21, 2006.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. Applicant alleges criticality to the lack of surfactant of the claimed composition in comparison with the composition of prior art that contains a surfactant. The arguments are not well taken. Applicant has used the composition as used by the prior art without a surfactant, and has autoclaved such composition. The fact that applicant has discovered a composition of the prior art without the surfactant can be autoclaved and stay stable does not create a patentably distinct invention in the absence of evidence to the contrary. The prior art clearly teaches that the composition of the instant application with the addition of a surfactant, can be autoclaved and stay stable. The determination of optimum proportions or amounts are considered to be within the skill of the artisan. Applicant has presented no evidence to establish the unexpected or unobvious nature of the claimed invention, and as such, the prior rejection sustains.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1618

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
